

SCHWEGO® neutral fount

Fountain additive for coldset printing

Function: **SCHWEGO® neutral fount** is a fountain additive for the requirements of coldset printing with a special view to anti-linting behaviour.

It can be used with all damping units and is excellently suitable for conventional newspaper production.

Properties:

- Excellent anti-linting behaviour (reduces lint build-up)
- Stable adjustment of the pH-value around 6,8
- Fast running free behaviour
- Develops a stable ink-water-emulsion even with process and special inks
- Suitable for CtP-plates
- Checked and released according to default settings of the machine builders
- Defined adjustment of the surface and interfacial surface tension
- For all water qualities

certified by

Quantity to add: **SCHWEGO® neutral fount** is added to the water with a ratio of 2-3%.

Tip: Subject to appropriate storage, the described properties of **SCHWEGO® neutral fount** remain stable for at least 12 months.

Packaging: 10 kg / 20 kg canister / 200 kg drum / 600 kg / 1000 kg container
