

## SCHWEGO<sup>®</sup> soft 2000

### Universal fountain additive for coldset printing

**Function:** **SCHWEGO<sup>®</sup> soft 2000** is a fountain additive which was especially developed for the requirements of coldset printing.

It can be used with all damping units and is excellently suitable for conventional newspaper production.

**SCHWEGO<sup>®</sup> soft 2000 W** for water hardness up to 10° KH  
**SCHWEGO<sup>®</sup> soft 2000 N** for water hardness from 8° - 14° KH

### Properties:

- Excellent anti-linting behaviour (reduces lint build-up)
- Develops a stable ink-water-emulsion even with process and special colours
- Suitable for CtP-plates
- New biocide combination prevents microbial trouble and prolongs the life of the additive
- No need for classification, free of methyl chloride isothiazolinon, formaldehyde and formaldehyde separators
- Stable adjustment of the pH-value
- Fast running free behaviour
- Checked and released according to default settings of the machine builders
- Complexing of the hardness formers prevents any deposits on the ink and damping rollers
- Defined adjustment of the surface and interfacial surface tension

certified by

**Quantity to add:** **SCHWEGO<sup>®</sup> soft 2000** is added to the water with a ratio of 2-3%

**Tip:** Subject to appropriate storage, the described properties of **SCHWEGO<sup>®</sup> soft 2000** remain stable for at least 12 months.

**Packaging:** 10 kg / 20 kg canister / 200 kg drum / 600 kg / 1000 kg container
